

# Dispenser and prescriber program

Our risk management plan and the certification program play an important part in how we and our national regulator ensure medicines of this kind are safely and responsibly provided in Australia. The table below shows all actively certified dispensers and prescribers by Australian state and territory at December 31, 2022.

	ACT	NSW	NT	QLD	SA	TAS	VIC	WA	National
Active Dispensers	186	1462	116	1191	286	240	1519	472	5472
Active Prescribers	71	1041	134	781	234	127	1173	324	3885

We have committed to providing further information about the service coverage of women of childbearing age by state / territory and geographical classification. The following tables show how many women are covered by one (1) certified prescriber and one (1) dispenser, by geographical classification.

## Dispensers: number of women of childbearing age per dispenser by region\*

	ACT	NSW	NT	QLD	SA	TAS	VIC	WA
Metro	866	1639	-	1401	1753	-	1243	1837
Regional	10	1016	624	886	1196	575	929	1090
Remote	-	972	654	592	1200	2263	0	671

## Prescribers: number of women of childbearing age per prescriber by region\*

	ACT	NSW	NT	QLD	SA	TAS	VIC	WA
Metro	2582	2213	-	2149	1971	-	1658	2836
Regional	12	1547	495	1425	1894	1090	1105	1352
Remote	-	7778	654	592	1467	2263	0	952

**Note:** a zero value indicates there are locations in that state or territory with that classification but no prescribers or dispensers are registered. A dash signifies there are no locations in that state or territory that fall under that classification. Classifications align with definitions provided by the Australian Bureau of Statistics (ABS).

\* The population number used to calculate these values has been updated to reflect the most recently available ABS data
